THE PERFECT RECIPE

Evercure Farms is nestled in one of the original Top 10 counties of hemp production in the early 1900s. With the perfect variable climate and nutrient rich limestone soil, our farm transforms "Cannabis Sativa L" into a cannabidiol rich delight. As part of the original strain of high CBD, low THC cannabis brought to the state in 2014, our field is all female clones and extremely fruity every fall. Utilizing only harvested sweet sensimilla flowers, Evercure Farms extractions are the best you will find in the world. Our product is not comprised of imported seed, stem, and leaf derived CBD. That's right, Evercure CBD is an all flower extract, bottled with its full spectrum of natural terpenes and cannabinoids. This is why you will never find Evercure CBD products in an array of artificial flavors or colors either. We let the natural hemp flowers provide the flavor and healthy benefits, it's that simple. Kentucky Fine, Bluegrass Made.

- ### HEALTHY HEMP INGREDIENTS:
- CAROTENE
 - VITAMIN B
 - VITAMIN E
 - HEMP PROTEINS
 - OMEGA 6 FATTY ACIDS
 - OMEGA 3 FATTY ACIDS
 - TERPENES
 - PLANT STEROLS

 - PHYTOCANNABINOIDS

NATURAL SYNERGY

The compounds in CBD hemp oil team together to provide therapeutic benefits that are not achieved by separate mixtures. This is better known as the "entourage effect".
